About Us

NOORTABAN LIGHTING COMPANY is a professional manufacturer and supplier of high-quality street lighting poles, decorative poles, park lighting poles, and outdoor lighting solutions.

With a strong focus on quality, durability, precision manufacturing, and modern design, we provide lighting pole solutions for roads, streets, parks, commercial areas, residential developments, and infrastructure projects.

Our products are manufactured using carefully selected materials and modern production techniques to ensure structural strength, long service life, corrosion resistance, and reliable performance in demanding outdoor environments.

We offer a wide range of standard and customized solutions, including single-arm, double-arm, multi-arm, galvanized steel poles, decorative poles, and specialized lighting structures. Our technical team can also develop products according to specific project requirements, drawings, dimensions, and engineering standards.

At NOORTABAN LIGHTING COMPANY, our goal is to provide reliable products, competitive solutions, and professional service while building long-term partnerships with customers and project contractors worldwide.
